PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience in full-stack web development, REST APIs, CI/CD pipelines, and cloud deployment. Skilled in React, ASP.NET Core, MongoDB, Jenkins, AWS EC2, Java, and SQL with a strong understanding of OOP, DBMS, authentication systems, and problem-solving concepts.

EDUCATION

G.L.A. University

Bachelor of Technology in Computer Science and Engineering — CGPA: 7.05/10

Mathura, Uttar Pradesh

2023 – 2027

Anglo Vedic Sr. Sec. School

Higher Secondary Education

Bahjoi, Uttar Pradesh

SKILLS

- **Languages:** Java, C#, JavaScript, SQL
- **Frontend:** HTML5, CSS3, JavaScript, React, Responsive Web Design
- **Backend:** ASP.NET Core, Basic CRUD Operations
- **Databases:** MongoDB, MySQL
- **DevOps & Cloud:** Jenkins, AWS EC2, CI/CD Pipelines
- **Tools:** Git, GitHub, VS Code, Postman
- **Core Concepts:** OOP, DBMS, Data Structures & Algorithms

PROJECTS

- **Smart Attendance System** (GitHub) *React, ASP.NET Core, MongoDB, JWT*
 - Developed a full-stack attendance management system using React and ASP.NET Core for real-time attendance tracking
 - Implemented JWT-based authentication and role-based access control for Admin, Employee, and Student modules
 - Built RESTful APIs and integrated MongoDB for attendance management and reporting functionalities
 - Integrated face recognition and webcam-based attendance features using Face API libraries
 - Designed responsive dashboards and analytics interfaces for attendance monitoring
- **CI/CD Pipeline for Microservices using Jenkins and AWS** (GitHub) *Jenkins, AWS EC2, Flask, Bash*
 - Built and deployed a CI/CD pipeline for microservices using Jenkins and AWS EC2
 - Automated build and deployment workflows using Jenkins pipelines, SSH, and Bash scripts
 - Developed Flask-based microservices and implemented deployment monitoring through a simple HTML dashboard
 - Used Git and GitHub for version control and collaborative development workflows

CERTIFICATIONS

- **DevOps and Cloud Computing – Summer Training**
GLA University (Coding Blocks)
- Learned fundamentals of CI/CD pipelines, Jenkins, Git, and AWS cloud deployment concepts
- Applied DevOps concepts by building and deploying CI/CD pipeline projects

ACHIEVEMENTS

- Solved 150+ DSA problems on LeetCode covering arrays, strings, recursion, sorting, and searching concepts
- Built academic projects focused on full-stack web development and DevOps workflows
- Actively practice problem-solving and explore modern software development technologies
